

Po-Chun Chien

Curriculum Vitae

2024-11-24

Coordinates

 Affiliation: Institute of Informatics, LMU Munich,
Oettingenstr. 67,
80538 Munich, Germany

 Webpage: www.sosy-lab.org/people/chien/
 Email: po-chun.chien@sosy.ifi.lmu.de
 ORCID: [0000-0001-5139-5178](https://orcid.org/0000-0001-5139-5178)

Research Interests

- Formal Methods: New algorithms and tools for the verification of computational systems
- Electronic Design Automation: Logic synthesis and optimization of hardware digital circuits
- Machine Learning: Application to formal verification and logic synthesis

Skills

- Programming: C/C++, Java, Python, Verilog HDL, Bash script, Cadence SKILL, MATLAB
- Natural Language: Mandarin Chinese (native), English (fluent)

Education

- since 2021 Ph.D. in Informatics (Computer Science), LMU Munich, Germany
- Advisor: Prof. Dirk Beyer
 - Funded by DFG: [ConVeY](#) and [Bridge](#)
- 07–10 2024 Research Exchange at University of Freiburg, Germany
- Advisor: Prof. Armin Biere
- 2018 – 2020 M.Sc. in Electronics Engineering, National Taiwan University (NTU), Taiwan
- Advisor: Prof. Jie-Hong Roland Jiang
 - Overall GPA: 4.22 / 4.30
- 2015 – 2018 B.Sc. in Electrical Engineering, National Taiwan University, Taiwan
- Overall GPA: 4.16 / 4.30 (top 5 %)

Academic Employment

- since 2021 Doctoral Researcher (advisor: Prof. Dirk Beyer) at
LMU Munich, Munich, Germany
- 2018 – 2021 Research and Teaching Assistant (advisor: Prof. Jie-Hong Roland Jiang) at
National Taiwan University, Taipei, Taiwan

Industrial Employment

- 2018 Summer Intern at MediaTek, Hsinchu, Taiwan

Honors & Awards

Academic Awards

- 2024 **ACM SIGSOFT Distinguished Paper Award** and **Best Artifact Award** at the ACM Intl. Conference on the Foundations of Software Engineering (FSE)
- 2024 **Distinguished Artifact Award** at the Intl. Conference on Tools and Algorithms for the Construction and Analysis of System (TACAS)
- 2024 **Best Paper Award** at the Intl. Symposium on Model Checking Software (SPIN)
- 2020 Chinese Institute of Electrical Engineering Thesis Award
- 2020 Graduate Institute of Electronics Engineering Outstanding Master's Thesis Award

2020	Institute of Information & Computing Machinery Master's Thesis Excellence Award
2020	Lam Research Master's Thesis Excellence Award at NTU
2016 – 2017	NTU Presidential Award (2 semesters)

Contest Awards

2023, 2024	2nd place overall in the Intl. Competition on Software Verification (SV-COMP)
2022	3rd place overall in the Intl. Competition on Software Verification (SV-COMP)
2021	2nd place in the programming contest of the Intl. Workshop on Logic & Synthesis
2019	1st place in CADathlon at the Intl. Conference on Computer-Aided Design (ICCAD)
2019	1st place in the Formosa Grand Challenge "Taking with AI" (domestic)

Scholarships

2018 – 2020	NTU-GIEE Scholarship (4 semesters)
2017 – 2018	TSMC-NTU Scholarship (2 semesters)

Publications

My publications can be found on [DBLP](#) and [Google Scholar](#). Three selected ones are listed below.

1. Dirk Beyer, **Po-Chun Chien**, Marek Jankola, and Nian-Ze Lee. A transferability study of interpolation-based hardware model checking for software verification. *Proceedings of the ACM on Software Engineering*, 1(FSE), 2024. doi: 10.1145/3660797. **[ACM SIGSOFT Distinguished Paper Award]**.
2. Dirk Beyer, **Po-Chun Chien**, and Nian-Ze Lee. Augmenting interpolation-based model checking with auxiliary invariants. In *Proceedings of the International Symposium on Model Checking Software (SPIN)*. Springer, 2024. **[Best Paper Award]**.
3. Dirk Beyer, **Po-Chun Chien**, and Nian-Ze Lee. Bridging hardware and software analysis with Btor2C: A word-level-circuit-to-C translator. In *Proceedings of the International Conference on Tools and Algorithms for the Construction and Analysis of Systems (TACAS)*, LNCS 13994, pages 152–172. Springer, 2023. doi: 10.1007/978-3-031-30820-8_12.

Software Projects

- BTOR2-CERT: A certifying hardware-verification framework using software analyzers
<https://gitlab.com/sosy-lab/software/btor2-cert>
 - BTOR2C: A translator from word-level circuits to C programs
<https://gitlab.com/sosy-lab/software/btor2c>
 - BTOR2-VAL: A witness validator for word-level hardware model checking
<https://gitlab.com/sosy-lab/software/btor2-val>
- Role: principle designer, maintainer, and developer
- CPV: A circuit-based program verifier
<https://gitlab.com/sosy-lab/software/cpv>
Role: principle designer, maintainer, and developer
- MOXICHECKER: An Extensible Model Checker for MoXI
<https://gitlab.com/sosy-lab/software/moxichecker>
Role: principle designer, maintainer, and developer
- CPACHECKER: A configurable software Verification framework
<https://cpachecker.sosy-lab.org/>
Role: developer
- BENCHCLOUD: A cloud platform for scalable performance benchmarking
<https://benchcloud.sosy-lab.org/>
Role: maintainer and developer
- BENCHEXEC: A framework for reliable benchmarking and resource measurement
<https://github.com/sosy-lab/benchexec>
Role: contributor

- COVERTEAM: A tool for on-demand composition of cooperative verification systems
<https://gitlab.com/sosy-lab/software/coveriteam>
Role: contributor
- EXT-FOLDING: A circuit-folding interface for the logic synthesis system [ABC](#)
<https://github.com/NTU-ALComLab/ext-folding>
Role: principle designer and developer
- FRINGEDT: An implementation of binary decision tree Learning with fringe-feature extraction
<https://github.com/Po-Chun-Chien/FringeDT>
Role: principle designer and developer
- LUT-NET: A tool for learning a network of lookup tables from binary input patterns
<https://github.com/Po-Chun-Chien/LUT-Net>
Role: principle designer and developer

Student Mentoring

2024	Zhengyang (John) Lu, PhD student, University of Waterloo Google Summer of Code Topic: Adaptive Algorithm Selection for Btor2 Verification Tasks
2024	Diego Salgado Esparza, Bachelor student, LMU Munich Research assistant for BENCHCLOUD
2024	Salih Ates, Mater student, LMU Munich Research assistant for BTOR2C and MOXICHECKER
2023	Zsófia Ádám, Budapest University of Technology and Economics Erasmus Program Topic: Correctness Witness Validation for Programs Translated from Hardware Models
2023	Nils Sirrenberg, Bachelor student, LMU Munich LMU Bachelor's Thesis Topic: Certifying Software Violation Witnesses for Hardware Verification Tasks via Simulation-Based Validation
2023	Jia Sun, Bachelor student, Kyoto University Google Summer of Code Topic: Reverse Program Synthesis for Backward Reachability Analysis
2023	Salih Ates, Bachelor student, LMU Munich LMU Bachelor's Thesis Topic: Improving Array Encoding in Hardware-to-Software Translation
2023	Zhu Yang, Mater Student, LMU Munich Research assistant for BENCHCLOUD

Teaching Experience

I have been a teaching assistant for the following courses.

Graduate Courses

Summer 2024	Software Engineering Internship (instructor: Prof. Dirk Beyer)
Summer 2023	Software Engineering Internship (instructor: Prof. Dirk Beyer)
Summer 2022	Software Engineering Internship (instructor: Prof. Dirk Beyer)
Winter 2021	Software Verification (instructor: Prof. Dirk Beyer)
Fall 2018	Deep Learning for Human Language Processing (instructor: Prof. Hung-Yi Lee and Prof. Yun-Nung Chen)
Spring 2018	Advanced Deep Learning (instructor: Prof. Hung-Yi Lee and Prof. Yun-Nung Chen)

Graduate Seminars

Winter 2024	Deductive Software Verification (instructor: Prof. Gidon Ernst)
Summer 2024	Algorithms for Model Checking (instructor: Prof. Dirk Beyer)
Winter 2023	Algorithms for Model Checking (instructor: Prof. Dirk Beyer)

Undergraduate Courses

Summer 2021	Software Development Internship (instructor: Prof. Dirk Beyer)
Spring 2020	Introduction to Electronic Design Automation (instructor: Prof. Jie-Hong Roland Jiang)
Spring 2019	Introduction to Electronic Design Automation (instructor: Prof. Jie-Hong Roland Jiang)

Undergraduate Seminars

Winter 2022	Software Verification: Tools and Techniques (instructor: Prof. Dirk Beyer)
-------------	--

Professional Activities

Conference / Workshop / Competition Organization

2024	Organizer of the International Workshop on CPACHECKER Organization committee (infrastructure) of SV-COMP 2025
2022	Student Volunteer at the European Joint Conferences on Theory and Practice of Software (ETAPS)

Journal Referee

2024	IEEE Transactions on Computer-Aided Design of Integrated Circuits and Systems
------	---

Conference Referee (co/sub-reviewer)

2025	International Conference on the Foundations of Software Engineering (FSE)
2024	International Conference on the Foundations of Software Engineering (FSE) International Conference on Software Engineering (ICSE) International Symposium on Formal Methods (FM)
2023	International Conference on Computer Design (ICCD) International Conference on Computer Aided Verification (CAV) International Conference on Automated Software Engineering (ASE)
2022	NASA Formal Methods Symposium (NFM) International Symposium on Software Reliability Engineering (ISSRE) Joint European Software Engineering Conference and Symposium on the Foundations of Software Engineering (ESEC/FSE)
2021	International Conference on Verification, Model Checking, and Abstract Interpretation (VMCAI)
2020	Design Automation Conference (DAC) International Conference on Computer-Aided Design (ICCAD)

Artifact Evaluation Committee

2024	International Conference on Computer Aided Verification (CAV) International Symposium on Automated Technology for Verification and Analysis (ATVA)
------	---

Google Summer of Code

2023, 2024	Org admin and mentor for Software and Computational Systems Lab at LMU Munich
------------	---
